DOCUMENT HISTORY	21

1. INTRODUCTION

This document specifies testing information including system tests that the program will be tested against.

1.1 Purpose of this Document

The purpose of this document is to ensure the program is robust and to detect bugs in the program that can be addressed and fixed. This document will also contain test reports.

1.2 Scope

This document should be read by the system programmers and testers.

1.3 Objectives

The objective of this document is to keep a record of system tests. This includes: test content, input, output and pass criteria, as well as reports on the tests that have been done.

2. USE CASE TESTS THAT NEED TO BE ADDED

This section will be removed prior to review

- Need some more tests and error cases for saving games
- Need some more tests and error cases for loading games
- Prompt castling move
- Check
- Checkmate
- Back button
- Offer draw
- Resign button
- Prompt en passant
- Toggle hints button
- End game

3. TEST SPECIFICATIONS

Test Ref	Req being tested	Test Content	Input	Output	Pass Criteria
FR1 – Player Setup					
SE-F1-001	FR1	Check that when the program starts the players are prompted to start a new game or restore a previous game	None	A prompt for what the user wants to do should be displayed	The game opens and prompts the user
SE-F1-002	FR1	Check that pressing 'start a new game' functions properly	Press start new game	Further prompts for information should be displayed	The game prompts the users for their names and who is playing the white/black pieces
SE-F1-003	FR1	Check that pressing restore previous game functions properly	Press restore previous game	Further prompts for information should be displayed	The players should be prompted to specify a saved game
SE-F1-004	FR1	Check that when prompted for user names, Giving a blank value is rejected	No value for first user prompt. Then rerun the test for the second user prompt	Error message warns of blank value, re-send name prompt	The value should be rejected and the code to prompt and assign the user name should re-run.
SE-F1-005	FR1	Check that when a player selects black, they are assigned black and the other player assigned white	Click black	None	The user that picked black should be assigned black and the other player assigned white
FR2 – Player Management					
SE-F2-001	FR2	Check that the program will keep track of each player's name and colour	Input 'user_black' for one user, and 'user_white' for the other. Click black for user_black	User_black is assigned black, user_white is assigned white	The program displays 'user_black' with the black pieces, and 'user_white' with the white pieces
SE-F2-002	FR2	Check that the position of a piece is updated when it moves	Start fresh game. Move white pawn from D2 to D3. Move black pawn from A7 to A6. Move white king from D1 to D2	Black pawn at A6, white pawn at D3, white king at D2	A display of the board in starting position, except A7 and D1 are empty. A black pawn in A6. A white pawn in D3. White king in D2.
SE-F2-003	FR2	Check that a black piece is removed when it is taken by a white piece	Start fresh game. Move white pawn from D3 to D4. Move black pawn from E7 to E5. Move white pawn from D4 to E5.	Black pawn is removed from play, white pawn is on E4	Black pawn on E5 has been removed from the board. White pawn is on E5. Out of play Black pawn is displayed on the side of the board

SE-F2-004	FR2	Check that a white piece is removed when it is taken by a black piece	Start fresh game. Move white pawn from D2 to D4. Move black pawn from E7 to E5. Move white pawn from E2 to E3. Move black pawn from E5 to D4.	White pawn is removed from play. Black pawn is at D4	White pawn on D5 has been removed from the board. Black pawn is on D5. Out of play white pawn is displayed on the side of the board
FR3 – Board Management					
SE-F3-001	FR3	Check the board is displayed correctly.	Start game	None	There is a chess board with pieces in the correct places
SE-F3-002	FR3	Check that when the game starts it is visually indicated that it is white's turn	Continue from last test	None	The white players Name should be displayed on the top right
SE-F3-003	FR3	Check that after white's turn has been made it is visually indicated that it is black's turn	Continue from last test. Make any move for white.	None	The black player's Name should now be displayed on the top right
FR4 – Piece Selection					
SE-F4-001	FR4	Check that selecting an empty space does nothing	Start a fresh game. Try to select some empty spaces	None	The Game should not display anything
SE-F4-002	FR4	Check that during white turn white pieces can be selected	Select any white piece during white's turn	None	The piece will be selected, and the program will display hints
SE-F4-003	FR4	Check that during white turn black pieces cannot be selected and moved	Try to select any black piece during white's turn	None	The piece should not be selected
SE-F4-004	FR4	Check that during black turn black pieces can be selected	Select any black piece during black's turn	None	The piece will be selected and the program will display hints
SE-F4-005	FR4	Check that during black turn white pieces cannot be selected and moved	Try to select any white piece during black's turn	None	The piece should not be selected
SE-F4-006	FR4	Check that when it is white's turn a white piece can be selected, then another white piece can be selected so long as the first piece is not moved	On white's turn, select any white piece, then, without moving it, select another white piece	None	The program displays hints for the first piece, then when the second piece is clicked the hints disappear, and hints for the second piece are displayed
SE-F4-007	FR4	Check that when it is black's turn a black piece can be selected, then another black piece can be selected so long as the first piece is not moved	On black's turn, select any black piece, then, without moving it, select another black piece	None	The program displays hints for the first piece, then when the second piece is clicked the hints disappear, and hints for the second piece are displayed

FR5 - Movement					
Pawn Movement					
SE-F5-001	FR5	Check the pawn displays correct hints on its first move	Start a fresh game, Select pawn at C2	None	Display hints that the pawn at C2 can be moved to C3 or C4
SE-F5-002	FR5	Check the pawn can move one vacant place on its first move	Start a fresh game, select pawn at C2 and move it to C3	None	C3 is occupied by a pawn, C2 is empty
SE-F5-003	FR5	Check the pawn can move two vacant places on its first move	Start a fresh game, select pawn at C2 and move it to C4	None	C4 is occupied by a pawn, C2 is empty
SE-F5-004	FR5	Check the pawn displays correct hints on its second move	Start a fresh game, Move pawn from C2 to C3. Make any move on black side. Select pawn at C3.	None	Pawn is moved to C3. When clicked again display hints that the pawn at C3 can be moved to C4.
SE-F5-005	FR5	Check the pawn can-not move three vacant places on its first move	Start a fresh game, select pawn at C2 and attempt to move it to C5	None	Pawn is not moved
SE-F5-006	FR5	Check the pawn can move one vacant place when it is not its first move	Start a fresh game, select pawn at C2 and move it to C3. Make any move on black side. Select pawn at C3 and move it to C4.	None	C4 is occupied by a pawn, C2 is empty
SE-F5-007	FR5	Check the pawn can-not move two vacant places when it is not its first move	Start a fresh game, select pawn at C2 and move it to C3. Make any move on black side. Select pawn at C3 and attempt to move it to C5.	None	C3 is occupied by a pawn, C2 is empty. Pawn is not moved from C3 to C5.
SE-F5-008	FR5	Check the pawn cannot move three vacant places when it is not its first move	Start a fresh game, select pawn at C2 and move it to C3. Make any move on black side. Select pawn at C3 and attempt to move it to C6.	None	C3 is occupied by a pawn, C2 is empty. Pawn is not moved from C3 to C6.
	FR5	Check hints are displayed correctly for a pawn that is blocked on its first move and has no diagonal pieces to capture	Start a fresh game, select pawn at E2 and move it to E4. On black side select pawn at E7 and move it to E5. On white side select bishop at F1 and move it to A6. On black side select pawn at A7.	None	Hints should show that the pawn can-not move anywhere

SE-F5-009	FR5	Check that a pawn that is blocked on its first move and has no diagonal pieces to capture cannot move	Continue from last test, attempt to move pawn from A7 to A5	None	The piece should not be moved
SE-F5-010	FR5	Check hints are displayed correctly for a pawn that can capture an enemy piece	Continue from last test, Select the pawn on B7	None	Hints should show that the pawn can move to B6 or B5, or capture the piece at A6
SE-F5-011	FR5	Check the pawn can capture diagonally in front	Continue from last test, Move pawn from B7 to A6	None	Bishop at A6 is removed and the pawn at B7 is moved to A6.
SE-F5-012	FR5	Check hints are displayed correctly for a pawn with an enemy piece diagonally behind it	Start a fresh game, Move white pawn from H2 to H4. Move black pawn from D7 to D6. Move white pawn from H4 to H5. Move black bishop from C8 to G4. Select white pawn	None	Hints should show that the pawn can move one place forward, and not show that it can capture the bishop behind it
SE-F5-013	FR5	Check the pawn cannot capture diagonally behind	Continue from last test, attempt to move the pawn from H5 to G4.	None	Nothing should happen
Bishop Movement					
SE-F5-101	FR5	Check the Bishop displays the correct moves at the start of the game	Start a Fresh game, Select the Dark Squared bishop	None	Should not display any possible moves at all as the bishop is blocked
SE-F5-102	FR5	Check The Bishop can correctly display its available spaces which it can move to	Start a Fresh game, Select the pawn at B2 and move it to B3, after black's move select the bishop	None	Should display that it is able to move to B2 & C3
SE-F5-103	FR5	Check The Bishop can move one vacant square on its color	Start a Fresh game, Select the pawn at B2 and move it to B3, after black's turn (G7 to G6) Move the Dark Squared bishop to B2	None	The Dark Squared Bishop should Occupy the B2 square and the C1 square should be empty
SE-F5-104	FR5	Check if the bishop correctly displays its available moves on which it captures another piece	Continue from last test, after black's turn (H7 to H5) Select the Bishop	None	It should Display that it can Capture the Rook on H8
SE-F5-105	FR5	Check The Bishop can move its full range on its own color	Continue From Last Test , after black's turn Move the Bishop from B2 to E5	None	The Dark Squared Bishop Should Occupy E5 and B2 should be empty

SE-F5-106	FR5	Check if the bishop correctly displays its available moves on which it captures other pieces	Continue from last test, after black's turn (H5 to H4) Select the Bishop	None	It should Display that it can Capture the Rook on H8 and the Pawn on C7
SE-F5-107	FR5	Check if the bishop is able capture , its own colors pieces	Continue from last test, Select the Dark Squared Bishop and try to Capture the white rook on A1	None	It should Not be able to capture the rook and no move should be executed and it should still be whites turn to move
SE-F5-108	FR5	Check if the bishop can capture opposing the opposing players pieces	Continue from last test, Select the Dark Squared Bishop and Capture the pawn on C7	None	The Dark Squared Bishop Occupies the C7 Square and pawn is no longer on the board
Rook Movement					
SE-F5-201	FR5	Check hints are displayed correctly when the rook is blocked	Start a fresh game. Select rook at H1	None	Hints show that the rook cannot move anywhere
SE-F5-202	FR5	Check rook cannot move one place forward when blocked	Continue from last test, try to move rook	None	Rook cannot move
SE-F5-203	FR5	Check rook can move two places forward	Continue from last test, Move white pawn from H2 to H4. Move black pawn from G7 to G5. Move white rook from H1 to H3	None	Rook is moved from H1 to H3
SE-F5-204	FR5	Check hints are displayed correctly for rook with clear space in front and left	Continue from last test, Move black pawn from F7 to F6. Move white pawn from H4 to G5. Move black pawn from F6 to F5. Select white rook at H3.	None	Hints are displayed that show the rook can move anywhere on the board directly to the left. And can move up to 3 spaces directly forward or take the pawn at H7
SE-F5-205	FR5	Check rook can move four places forward	Continue from last test, Move rook from H3 to H6.	None	Rook is moved to H6
SE-F5-206	FR5	Check rook can move one place left	Continue from last test, Move black pawn from E7 to E5. Move rook from H6 to G6.	None	Rook is moved to G6
SE-F5-207	FR5	Check rook can move seven places left	Continue from last test, Move black pawn from E5 to E4. Move white rook from G6 to A6.	None	Rook is moved to A6

SE-F5-208	FR5	Check hints are displayed correctly for rook that can move backwards and right	Continue from last test, Move black pawn from F5 to F4. Select white rook at A6.	None	Hints display that indicate rook can be moved up to 3 places directly backwards, or up to 7 places directly right.
SE-F5-209	FR5	Check rook can move three places backwards	Continue from last test, Move white rook from A6 to A3.	None	Rook is moved to A3
SE-F5-210	FR5	Check rook can move one place right	Continue from last test, Move black pawn from F4 to F3. Move white rook from A3 to B3.	None	Rook is moved to B3
SE-F5-211	FR5	Check hints are displayed correctly for a rook that can capture a piece to the right	Continue from last test, Move black pawn from H7 to H6. Select white rook at B3.	None	Hints are displayed that the rook can move up to 3 places directly right, or capture pawn at F3.
SE-F5-212	FR5	Check rook can capture a piece 4 places directly right	Continue from last test, Move white rook at B3 to F3.	None	The rook is moved to F3 and the pawn previously at F3 is removed from play.
Knight Movement					
SE-F5-301	FR5	Check the knight displays the correct moves at the start of the game	Start a fresh game, Select the king's side Knight	None	The knight should be have possible moves on F3 and H3
SE-F5-302	FR5	Check that the Knight can move to a space	Continue from last test, Move the King's side Knight to C3	None	The Knight should Now be at C3 and B1 should be Empty
SE-F5-303	FR5	Check that the Knight cannot take a Friendly piece	Continue from Last Test, Move Black's D pawn to D5 now try to move the Knight on C3 to Take the E2 Pawn	None	The Knight Should not be Able to take the E4 pawn as it is a friendly piece
SE-F5-304	FR5	Check that the knight Correctly displays that it can capture pieces	Continue from last test, Select the Knight on C3	None	It should display that that the Knight Can capture the Pawn on D5
SE-F5-305	FR5	Check That the knight can Capture pieces	Continue From last test, Select the Knight on C3 and Capture the pawn on D5	None	The Knight will Capture the Pawn and will be on D5
SE-F5-306	FR5	Check that the Knight can display all of its moves correctly	Continue from last test, do move the Black pawn on E7 to E6 now select the Knight	None	The knight Should Display Available moves on E7 & E3, F6 & F4, C7 & C3, and B4 & B6
SE-F5-307	FR5	Check that the Knight Can be captured by another piece	Continue from last test, move your pawn on E2 to E4 then as Black take	None	ON E5 there should be a Black pawn and no White Knight on the Tally for the Black

			the Knight with Your pawn on E6		Player the Count should be at 1 Knight Captured
Queen Movement					
SE-F5-401	FR5	Check the Queen displays the correct moves at the start of the game	Start a fresh game, select the Queen	None	The Queen should have no possible moves as it is blocked
SE-F5-402	FR5	Check that the Queen can't move anywhere when blocked in	Continue from Last test, try to move the Queen Forward once, To the Right once, and to the left once	None	The Queen should not have moved as all of them are illegal moves
SE-F5-403	FR5	Check that the Queen can correctly display All the available moves	Continue from Last test, move White's pawn from E2 to E4 for Black Move the E7 pawn to E5 now select the queen	None	The only Available correct moves should be the diagonal that goes from D1 to H5
SE-F5-404	FR5	Check that the Queen can Correctly move one space Diagonally	Continue from last test, Select the Queen and move her to E2	None	The D1 square should be empty, and the Queen should now be on the E2 square
SE-F5-405	FR5	Check that the Queen can Correctly move One space vertically	Continue from the last test, for Black move the F pawn to F6 then Move the queen to E3	None	The E2 square should be empty and the E3 square should house the Queen
SE-F5-406	FR5	Check that the Queen can Correctly move one space horizontally	Continue from last test, for black push the F pawn now select the Queen and move her to D3	None	The E3 square should be Empty and the D3 square should house the Queen
SE-F5-407	FR5	Check that the Queen can Correctly Display available Captures	Continue from last test, for black Capture the E4 pawn with Your F5 pawn then as White select the Queen	None	The Queen Displays that it can capture the Pawns on E4 and D7
SE-F5-408	FR5	Check that the Queen can capture diagonally adjacent	Continue from Last test, Capture the Pawn on E4 with the queen for Black move the Queen diagonally adjacent to E7	None	The White Queen is now on the E4 Square and the Black Pawn is gone, and the Black Queen is on the E7 Square
SE-F5-409	FR5	Check that the queen can capture vertically adjacent	Continue from last test, Capture the Pawn on E5	None	The White Queen is now on the E5 Square and the Black Pawn is gone
SE-F5-410	FR5	Check that the queen can capture vertically 2 spaces and is able to be captured	Continue from last test, Capture the white queen on E5	None	The Black Queen is where the White Queen was and E7 is now empty.

			with the Black Queen		
SE-F5-411	FR5	Check that The Queen can Capture Diagonally	Continue from Last Test, For White Put the Light Squared Bishop in Front of the King then For Black Capture the B2 pawn with your Queen	None	The Black queen is now on B2, and the Pawn is captured
SE-F5-412	FR5	Check That the Queen can be captured by another Piece other than a Queen	Continue form Last Test, for white Select the Dark Squared Bishop and Take the Queen	None	The bishop is Now on B2 and the Black Queen is Captured
King Movement					
SE-F5-501	FR5	Check the King displays the correct moves at the start of the game	Start a fresh game, select the king	None	The king should not have any possible moves as it is blocked
SE-F5-502	FR5	Check that the King Can't Move when it is blocked in	Continue from the Last test, Select the King and try to move him in every cardinal Direction	None	The King Should Not move to Any space and remain where it is
SE-F5-503	FR5	Check that the King can correctly display All the available moves	Continue from the Last test, move White's pawn from E2 to E4 for Black Move the E7 pawn to E5 now select the king	None	The Only move That Should show is King to E2
SE-F5-504	FR5	Check that the King can move	Continue from last test, Select the White king and move him to E2 than for Black's King move him to E7	None	The kings should move from the starting Square to Now E2 for the White king and E7 for the Black King
SE-F5-505	FR5	Check that the King can move diagonally	Continue from last test, Move the White king to D3 than for the Black king Move to F6, Move the White King to C4 than for the Black King Move to G5	None	The kings should have moved from E2 and E7 to C4 and G4
SE-F5-506	FR5	Check that the White King correctly displays all possible moves	Continue From Last test, Select the White King	None	Since the King cannot move into the way of incoming enemy pieces as you cannot voluntarily move into check the king Should display that the Only possible moves are B5, B3, C3, D3, & D5

SE-F5-507	FR5	Check that the Black king correctly displays all possible moves	Continue the last test, move the White light squared bishop to E2 than Select the Black King	None	Since the King cannot move into the way of incoming enemy pieces as you cannot voluntarily move into check the king Should display that the Only possible moves are F4, F6, G6, H6, & H4
SE-F5-508	FR5	Check that the king correctly displays that it can Capture a Piece	Continue from the Last test, For Black move the Dark Squared Bishop to C5 than Select the White king	None	The White King should be Displayed to be able to capture the Bishop on C5
SE-F5-509	FR5	Check that the king can correctly capture a piece	Continue from the last test, Select the White king and capture the bishop on C5	None	The White King should now be on C5 and the Bishop should now be Captured
SE-F5-510	FR5	Check that the king should not be able to move into check	Continue from last test, Select the black king, and try to move to F5	None	The Black king should not be able to move to F5 as that Space is controlled by the white Pawn on E4
Special Movement					
En-Passant Tests					
SE-F5-601	FR5	Check that En-Passant is displayed when it is possible	Start a fresh game, move white's E pawn to E4, then Move Black's E pawn to E6, then move the E4 pawn to E5, then move blacks d pawn to D5, now select the E5 pawn	None	En-Passant should be displayed as a possible move on this turn for the pawn to take on the D6 square
SE-F5-602	FR5	Check that En-Passant is not displayed on the next turn when it is not taken on its turn	Continue from last test, Move any piece as white and the same for black and then as white select the E5 pawn	None	En-Passant should not be displayed as a possible move on this turn.
SE-F5-603	FR5	Check that En-Passant is correctly executed in the chess game	Start a fresh game, move white's E pawn to E4, then Move Black's E pawn to E6, then move the E4 pawn to E5, then move blacks d pawn to D5, now select the E5 pawn and execute En-Passant on D6	None	The D5 and E5 Square should be vacant the White pawn should be on D6

SE-F5-604	FR5	Check that En-Passant is not able to be executed on the next turn then it was able to be done	Start a fresh game, move white's E pawn to E4, then Move Black's E pawn to E6, then move the E4 pawn to E5, then move black's d pawn to D5, do any other move for white then En-passant, do any other move for black other than moving the D5 pawn, now select the E5 pawn and try to execute En-Passant on D6	None	En-Passant should no longer be possible and as such nothing should happen
SE-F5-605	FR5	Check that En-Passant is not able to be executed on the next turn then it was able to be done after the pawn has moved	Start a fresh game, move white's E pawn to E4, then Move Black's E pawn to E6, then move the E4 pawn to E5, then move black's d pawn to D5, do any other move for white then En-passant, For black move the D5 pawn forward, now select the E5 pawn and try to execute En-Passant on D6	None	En-Passant should no longer be possible and as such nothing should happen
SE-F5-606	FR5	Check that En-Passant is not able to be executed on any turn after it was able to be done.	Start a fresh game, move white's E pawn to E4, then Move Black's E pawn to E6, then move the E4 pawn to E5, then move black's d pawn to D5, do any other move for white then En-passant for 5 turns same with black, Then try to execute En-passant	None	En-Passant should no longer be possible and as such nothing should happen
SE-F5-607	FR5	Check that En-Passant is not able to be seen or executed on any other piece other than a pawn	Start a fresh game, move white's E pawn to E4, then Move Black's D pawn to D6, Move white's pawn to E5 then move black's bishop to F5, Now select the E5 pawn and try to execute En-Passant on the Bishop	None	Since Pawns are the only pieces that can be attacked via En-Passant nothing should be displayed and the bishop should not be able to be captured by the pawn

Promotion Tests					
SE-F5-701	FR5	Check that the Promotion menu is displayed when it should be for white	Start a fresh game, The moves are: white: e4 Black:d5 white: d3 Black:c6 white: exd5 black: e6 white: dxc6 black: e5 white: cxb7 black: Knight to C6 white:b8	None	The Promotion menu should open next to the Name of the White Player with 4 options for the player to choose From Knight, Queen, Bishop, and Rook in White's Color
SE-F5-702	FR5	Check that the Promotion menu is displayed when it should be for black	Start a fresh game, The moves are: white: d4 Black:e5 white: c3 Black:exd4 white: e3 black: dxc3 white: e4 black: cxb2 white: Knight to C3 black: b1	None	The Promotion menu should open next to the Name of the Black Player with 4 options for the player to choose From Knight, Queen, Bishop, and Rook in Black's Color
SE-F5-703	FR5	Check That the Promotion to a Bishop is possible	Start a fresh game, The moves are: white: e4 Black:d5 white: d3 Black:c6 white: exd5 black: e6 white: dxc6 black: e5 white: cxb7 black: Knight to C6 white:b8 and select to Promote to a Bishop	None	The Pawn on B8 should now be a Bishop on Dark squares and it should display that Black has Taken One Of your Pawns
SE-F5-704	FR5	Check That the Promotion to a Knight is possible	Start a fresh game, The moves are: white: e4 Black:d5 white: d3 Black:c6 white: exd5 black: e6 white: dxc6 black: e5 white: cxb7 black: Knight to C6 white:b8 and select to Promote to a Knight	None	The Pawn on B8 should now be a Knight and it should display that Black has Taken One Of your Pawns
SE-F5-705	FR5	Check That the Promotion to a Rook is possible	Start a fresh game, The moves are: white: e4 Black:d5 white: d3 Black:c6 white: exd5 black: e6 white: dxc6 black: e5 white: cxb7 black: Knight to C6 white:b8 and select to Promote to a Rook	None	The Pawn on B8 should now be a Rook and it should display that Black has Taken One Of your Pawns
SE-F5-706	FR5	Check That the Promotion to a Queen is possible	Start a fresh game, The moves are: white: e4 Black:d5	None	The Pawn on B8 should now be a Queen and it should

			white: d3 Black:c6 white: exd5 black: e6 white: dxc6 black: e5 white: cxb7 black: Knight to C6 white:b8 and select to Promote to a Queen		display that Black has Taken One Of your Pawns
SE-F5-707	FR5	Check that a Promotion is possible right after a capture	Start a fresh game, The moves are: white: d4 Black:e5 white: c3 Black:exd4 white: e3 black: dxc3 white: e4 black: cxb2 white: Knight to C3 black: bxa1 and try to promote to a queen	None	The Promotion menu should open next to the Name of the Black Player with 4 options for the player to choose From Knight, Queen, Bishop, and Rook. Then when the Queen is Chosen It Should Say that White Has taken a Black Pawn
SE-F5-708	FR5	Check that Promotions are not possible with other pieces	Take Every other piece of white's to the 8 th row	None	The promotion menu Should Not open since only pawns can promote
Castling Tests					
SE-F5-801	FR5	Check that Castling is possible on the king's side	Start a fresh game, The moves are: white: e4 Black: e5 white: Bishop D3 Black: F6 White: Knight C3 Black: Bishop C5. Now select the White King	None	It should Display That Castling is Possible on the King's side by Showing a Golden king on G1 and a Rook on F1
SE-F5-802	FR5	Check That Castling is possible on the Queen's side	Continue from Last Test, the moves are: White : Queen E2 Black: Bishop D6 White: B3 Black: Bishop A3 White: Bishop capture Bishop Black: F5 White: Knight C3 Black: Fx E4 Now Select The White King	None	It Should Display that Castling is possible bon the Queen's side by showing A Golden King on C1 and a golden rook on D1
SE-F5-803	FR5	Check That Castling on the King's side works	Continue From Last test, Select the king and castle on the King's side	None	The King is now on the G1 Square and the Rook is on the F1 square
SE-F5-804	FR5	Check That Castling on the Queen's side works	Continue From SE- F5-802, Select the king and castle on the Queen's side	None	The King is now on the C1 Square and the Rook is on the D1 square

SE-F5-805	FR5	Check That Castling is disabled when the king is moved	Continue From SE-F5-802, Select the king and move to F1 then move Black's D pawn to D6 now select the King	None	The king has moved so castling is no longer Available For White
SE-F5-806	FR5	Check That Castling on the king's side is disabled when the rook has moved	Continue From SE-F5-802, Select the Rook and move to F1 then move Black's D pawn to D6 now select the King	None	Castling is no longer available on the king's side
SE-F5-807	FR5	Check That Castling on the Queen's side is disabled when the rook has moved	Continue From SE-F5-802, Select the Rook and move to C1 then move Black's D pawn to D6 now select the King	None	Castling is no longer available on the Queen's side
SE-F5-807	FR5	Check That Castling is disabled when there are places the enemy pieces can be on the next turn in between the king and the rook	Continue From SE-F5-802, Select the Knight on C3 and move to D5 then take Black's E pawn on F3 do any move as white except move the Queen, king, or any Rooks, Now Take the Queen on E2 with the F3 Pawn and Select the White King	None	Castling is no longer available as the pawn is blocking the Path between both Rooks and the King
FR6 – Detecting Check					
SE-F6-001	FR6	Check That the king does not start off being in check	Start a new game	None	At the Start of the Games none of the Kings should be in Check
SE-F6-002	FR6	Check That putting the King in Check is Possible	Start a new game, Push white's D pawn to D4 then push black's E pawn to E6 then push white's E pawn to E3. Then Move Black's Bishop to B4	None	This Should put the king in check and highlight a yellow square underneath him.
SE-F6-003	FR6	Check that moving another piece unrelated to Blocking/ taking the enemy piece giving check to the king should not be possible.	Continue From Last test, try to move the D4 pawn to D5	None	Since the King is in check and that piece/ move Neither blocks nor takes the piece giving check it is not possible to be done
SE-F6-004	FR6	Check That all Available Moves when given check are displayed	Continue from last test, there should be Displayed for this specific Check 6 Available moves.		The only available moves are as follows Move the King to E2, Move the Queen to D2, move the Bishop

					to D2, move the Pawn to C3, and move the Knight to B3 and D2
SE-F6-005	FR6	Check that it is Possible to get out of the Check state	Continue from last test, Move the pawn from C2 to C3	None	The King Should no longer be in check
SE-F6-006	FR6	Check that it is not possible for you to move a piece which would then result in a check being given on your own king	Continue from last test, Move the Bishop from B4 to A5 and now try to push White's C pawn forward	None	Since the Rules of chess do not allow for the person to check themselves after moving one of their pieces The pawn on C3 cannot be Moved as it is pinned on to the King
SE-F6-007	FR6	Check that it is not possible to escape check via Castling	Continue from last test do any moves for black except moving the Dark Squared Bishop while for white moving the Light squared bishop to D3 and Knight to F3, after which take with black's dark squared bishop on C3 checking the king and then try to castle	None	Since the King is in Check, he cannot castle
SE-F6-008	FR6	Check if it is possible to capture a piece to escape check	Continue from last test, Capture the Bishop on C3 with White's Knight on B1	None	The king should no longer be in check as the bishop has now been Captured
FR7 – Detecting Checkmate					
SE-F7-001	FR7	Check to see if Checkmate is Detected successfully for Black	Start a new Game, the moves are: White: F3 Black: E6 White: G4 Black: Queen H4	None	The Game should end and the square under the king should be red. The name of the Black player should be displayed saying 'Player Name' Wins as well as the end game prompt. This is Checkmate Because the King cannot go anywhere, and No Pieces can Block and or capture the Queen giving Check.
SE-F7-002	FR7	Check to see if Checkmate is Detected successfully for White	Start a new Game, the moves are: White: E4 Black: E5 White: Queen to F3 Black: Knight to E7	None	The Game should end and the square under the king should be red. The name of the White player should

			White: Bishop to C4 Black: Queen's Knight to C6 White: Queen to F7		be displayed saying 'Player Name' Wins as well as the end game prompt. This is Checkmate Because the King cannot go anywhere, and No Pieces can Block and or capture the Queen giving Check. Especially not the King as Capturing the Queen would not be possible as it is being Protected by the bishop
